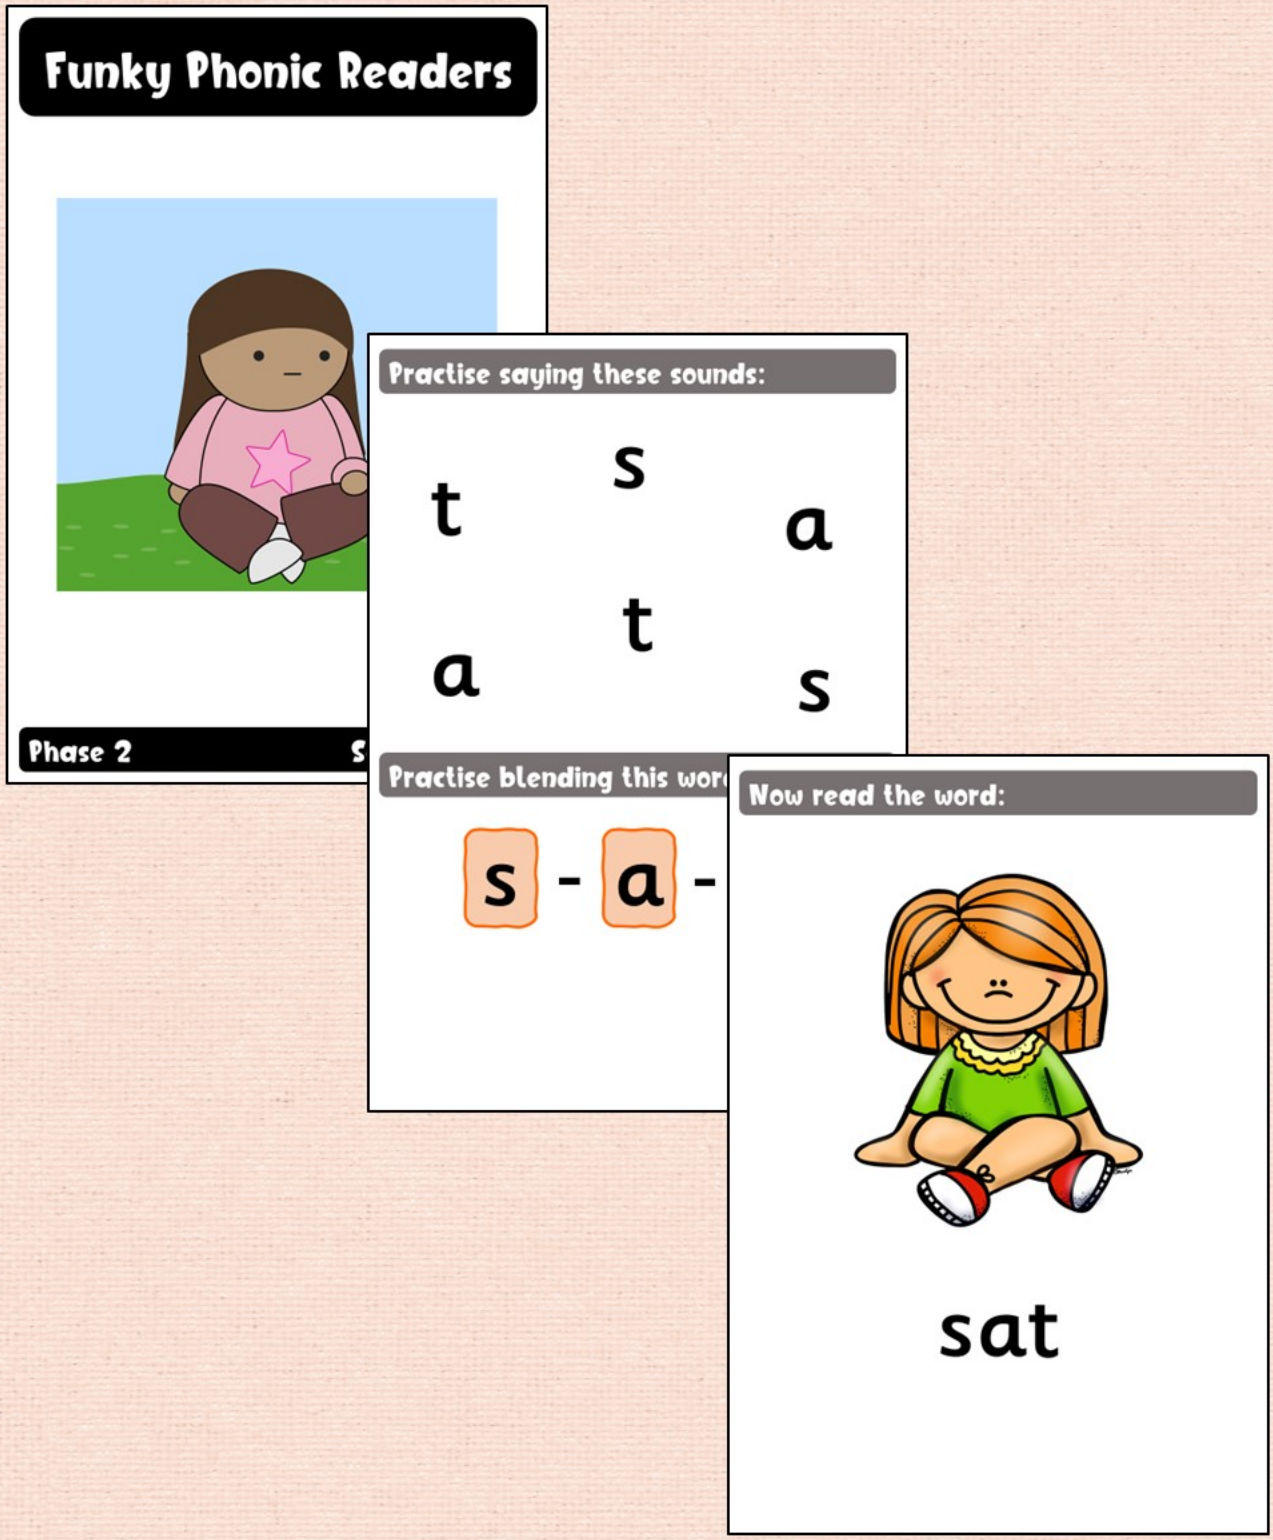
Phase 2
Phonic Readers- Sampler



Phase 2 Phonic Readers

This sample pack contains five of our Phonic Reader Books to trial. There is one from each set of sounds.

All the books are phonetically decodable. Enabling children to gain confidence in blending words and captions. Capital letters are introduced in the books for the Set 4 sounds as well as tricky words.

Tricky words have been coloured coded in red to enable children to stop and read these words. Some books contains more than one tricky word.

Each book has a section for reading the sounds needed for the book, a word section to for blending and then moves onto using those words into captions.

These books are designed to supplement current reading schemes within school as well as bridge the gap between caption reading and books.

They can be used as home readers, school readers, for interventions and even used in your phonic lessons in the apply stage.
